## MENOMINEE COUNTY YOUNG FARMERS

Do you remember when you were a young or beginning farmer? Perhaps you are currently establishing a farm or ranch? The Menominee County Young Farmers group sponsored by Michigan Farm Bureau, is for young men and women ages 18-35 who have a passion for the Michigan agriculture industry. This program offers young farmers and ranchers the opportunity to share ideas with one another through various events such as discussion meet competitions, the young farmer leaders' conference, and so much more. Here in Menominee County we are fortunate to have Jakob Marciniak as our young farmer committee chair. Over the last few years the local young farmers group has hosted a yearly Dinner on the Farm event. This event is open to the public and allows for our young farmers to share their passion for the agriculture industry with consumers in a relaxed picnic setting. Jakob shared that he has some big plans for the group's future and looks forward to creating more opportunities for the area's young farmers.

Stephenson Marketing Cooperative is a great resource for young and beginning farmers for all their agriculture needs. We offer mechanical and tire shop services, agronomy services, as well as animal feed and nutrition consulting. SMC wants to be the first choice for Menominee County Young Farmers.

## 2020 MENOMINEE COUNTY FAIR GOES VIRTUAL

National dairy month is an awesome time to celebrate our dairy farmers and some of our favorite foods; cheese, butter, milk, yogurt, and ice cream. Michigan ranks 6th in the nation for milk production. For many generations dairy farming in Menominee county has been a back bone for the local agriculture industry.
